Accessories

VELA chairs are developed so that individuals with disabilities can maintain independence and stay active. The right accessories on the chairs can be crucial for providing, e.g. good sitting posture and improved participation for the user.

Lateral support

Thigh/side support

Abduction block

BODY SUPPORT

- :: Lateral supports are suitable for users who require stability at the sides and front
- :: Thigh/side supports have padded cushions that offer stability and comfort without limiting activity
- :: Abduction blocks help to keep the user in an optimal comfortable position

Footrest with fold-out LP plate

Fold-out foot bar

Foot and ankle harnesses

FOOT- & LEG REST

- :: Footrest with fold-out LP plate. This footrest is fitted to the seat, and travels with the seat when it is height-adjusted
- :: Fold-out foot bar which can be folded up so that it is not in the way or can be used as a step when the user gets into and out of the chair
- :: A foot and ankle harness is suitable for people who find it difficult to keep their feet on the footplate

Y seat belt

H seat belt

Pelvic four-point lap belt

BELTS

- :: The Y seat belt is a 4-point lap belt with adjustable length. The seat belt is available with either a press lock or a binding lock
- :: The H seat belt controls the user's body and provides stability in the sitting position
- :: The Pelvic four-point lap belt is suitable for individuals who require a very supportive lap belt

Head support

Multi-adjustable push bar

Table tray

MISCELLANEOUS

- :: The head support with pad is adjustable in height, depth and angle so the user can achieve optimum support for the head and neck
- :: The multi-adjustable push bar takes account of the healthcare worker's work posture when having to transport a user in the chair
- :: The table tray folds down and can be removed. It is height, depth and width adjusted to match the user's sitting position
- :: Different armrest pillows for optimum support and for providing an ergonomic sitting posture
- :: An extension grip is an advantage when having difficulties reaching a standard length brake stick. A T-brake lever or a V-grip makes it easier for people to use the chair.

Armrests

Miscellaneous grips

UPHOLSTERY AND FOAM

- :: VELA offer individual solutions within padding, comfort and support on all seats and backrest, e.g. a pommel in front of seat or lateral support
- :: If a specially customised cushion is required, an O seat/backrest can be used as a base to put the customised cushion onto
- :: VELA also solve special needs within Memory foam, Dunlopillo or other solutions

THE SEAT PAD
& BACKREST TO
BE CHANGED TO
ACCOMMODATE
GROWTH

"I like my chair because I can move around with my friends and chase my sister and brother."

Sadie Denman

"Sadie's posture in the Vela chair is suitable for eating, drinking, using her communication aid and of course, driving the chair! This makes her the best she can be at school and gives her some much needed independence." Nicola Denman

- :: Great for playground and classroom activities
- :: Compact and manoeuvrable
- :: Easy to get into and out of
- :: Ergonomically-shaped seat and back

Typical users:- MS, MD, CP, fibromyalgia, spinal surgery, chronic musculoskeletal pain etc

AROUND THE
OFFICE

VELA Blues 100

VELA Blues 100-SW

"I have regained my independence and self respect!."

Hayley Rush

"Since receiving my VELA Blues Powerchair, my work life has been made that much easier. I can get myself to the bathroom, the drinks machine and other parts of the office. I have regained my independence and self respect! I no longer have to wait for people to push me around – it's fantastic!! " Hayley Rush

- :: Great for Office or Home based Activities
- :: Compact and manoeuvrable
- :: Easy to get into and out of
- :: Ergonomically-shaped seat and back
