

# Contrelle® Activgard

Bladder support for women

**A simple device to reduce or stop bladder leaks**

## The Solution

# The Solution

If this all sounds familiar and you are one of the many women who are tired of wearing uncomfortable pads and liners for fear of having an accident, we have some good news... YOU don't have to put up with it any more!

Contrelle® gives you your confidence back and allows you to do all of the things you love without worrying about where the nearest toilet is.

Contrelle is a pad free solution - Contrelle doesn't absorb leaks, it stops them from happening. Inserted and removed like a tampon, though works very differently Contrelle provides support to the bladder and urethra, keeping you protected, dry and in control.

**9 OUT OF 10 LADIES experience significant improvements in bladder leakage symptoms using Contrelle.**

Contrelle is a soft, comfortable and discreet bladder support that comes with a reusable applicator. With Contrelle snugly in place, you can enjoy socialising, run, jump, dance, laugh, sneeze and cough, without fear of bladder leaks or the inconvenience of bulky pads and liners or the worry of unpleasant odours.

## Sarah's Story

Sarah's bladder leakage problem started in her 30's, after the birth of her first child. She leaked a little sometimes when she ran, laughed and sneezed. After her second child, Sarah's bladder leakage gradually got worse. As she approached menopause she was leaking every day, became depressed, miserable and stopped exercising. She tried several products but none of them helped – until Contrelle Activgard.

"With Contrelle I can do all the things I want. I can have a normal life"

Sarah
