ABOUT US

SINCE 1969

Integrex stands as a premier UK designer and manufacturer of cutting-edge, interactive electronic and IT products. Our innovative solutions cater to a diverse range of sectors including Education, Care, Retail and Corporate environments. By integrating advanced technology with user-centric design, we aim to enhance learning experiences, improve care quality, streamline retail operations and boost Corporate efficiency.

The products have been fantastic and have met the very complex needs of the pupils within the school.

Sandra Lee

DL Coordinator, Sherwood Park School

Interactive Screens

The Benefits

Flexible Positioning

The Visilift+ and The Serene are designed to provide easy access to Interactive Screens for individuals with mobility challenges. Their innovative tilting mechanisms enable seamless adjustment, ensuring that users, whether in Wheelchairs or lying in a prone position, can comfortably engage with the screen from various angles.

Enhanced Engagement

The adjustable screen encourages participation in Education, therapeutic and recreational activities, ensuring all users can interact comfortably.

Interactive Technology

The Visilift+ and The Serene provide endless possibilities for creative and cognitive development, thanks to their intuitive touch capabilities and compatibility with a wide range of software. The multi-touch feature ensures that users can interact with the screen seamlessly, even when leaning on it, offering both support and functionality without compromising the user experience.

Portability

The mobile design ensures that The Serene and The Visilift+ can be easily moved between rooms, providing accessibility and a shared resource wherever it is needed.

Engagement and Focus

Interactive features encourage active participation, promoting concentration and cognitive development.

Durability and Stability

Built with a robust frame, ensuring the device is reliable for both individual and group use in various environments, including Healthcare and Education settings

The Visilift+ and The Serene exemplify how technology can address the unique challenges faced by individuals with Special Needs. Together, they create environments that promote independence, relaxation and meaningful interaction, benefiting not only the users but also their families and caregivers.

VisiLift+

The Imagine Suite

What Makes The Imagine Suite?

We designed The Imagine Suite software to provide an engaging, customisable and interactive platform for use on the SENSE Range of Interactive Projection. Its purpose is to enhance user engagement, foster creativity and promote physical, cognitive and social well-being through over **500** pre made activities and user generated content.

YouTube Resources

Seamless access to pre-selected educational YouTube videos, fostering engaging and interactive learning experiences.

Educational

Maths and Phonics content included for Key Stages 1 & 2.

Ease of Use

Controlled with a single remote and featuring an intuitive interface, the Imagine Suite is thoughtfully designed to make creating your own activities effortless and enjoyable.

Storybook

Create interactive visual stories enhancing creativity and storytelling.

Measured Outcomes

The Imagine Suite enables the tracking of measured outcomes, providing valuable insights into engagement progress and achievements for users.

Talk Out Loud

The Imagine Suite can read aloud any text displayed in an activity, enhancing accessibility and engagement for all users.

Personalisation

With the Imagine Suite, you can personalise activities by adding your own media and creating individual user profiles for a tailored experience.

Interactivity

Activities like Splat, Ball games and the Interactive Fishpond encourages movement, improve cognitive functions and provide sensory feedback.

Create Once

The Creative Suite allows you to share your interactive resources with ALL devices connected to your account.

Instant Activity Wizard

A simple quick way of creating personalised activities by downloading content to an external Memory Stick and plugging into the USB Slot.

Realtime Adjustment

Using the Remote to instantly increase the speed and difficulty of certain activities.

The Four Areas of SEND

In the SEND Code of Practice, there are four broad areas of Special Educational Needs that should be identified and focused on within Educational settings. The Imagine Suite has been thoughtfully designed with these four areas as core principles, ensuring they are addressed through more than 500 integrated activities.

Communication and Interaction

250+

We have carefully designed over 250 combined activities to support users with Speech, Language and Communication (SLC) Needs, offering activities that range from Phonics development to group-based interaction.

Cognition and Learning

280+

We have developed over 280 combined activities to support users with Cognition and Learning (CL) Needs, featuring activities such as Phonics to aid with Dyscalculia and word searches to assist with Dyspraxia.

Social, Emotional and Mental Emotional Health

280+

We have created over 280 combined activities to support users with Social, emotional and Mental Health (SEMH) needs, including activities like Painting to promote concentration and group tasks to foster social interaction.

Physical and/or Sensory Needs

300+

We have developed over 300 combined activities to support users with Physical and Sensory Needs, featuring activities such as card games to enhance gross motor skills and storybooks to promote engagement.

The Imagine Suite exemplifies how technology can address the unique challenges faced by individuals with Special Needs. It creates environments that promote independence, relaxation and meaningful interaction, benefiting not only the users but also their families and caregivers.

Imagine Suite

Standard

The Imagine Standard Suite is supplied on the range of SENSE Interactive Projection, Immersive Rooms as well as in fixed interactive projection solutions and on the Visilift+.

Creation Suite

What can Activity types can I create?

The Imagine Suite includes exclusive access to an online Creation Suite, allowing you to easily design and customise your own interactive content. This intuitive platform empowers you to create tailored sensory experiences and activities ensuring a fully personalised and engaging environment for users. Whether for educational, therapeutic, or recreational purposes, the Creation Suite offers limitless possibilities to bring your ideas to life.

Maths

With a variety of customisable Maths templates at your fingertips, you can easily adjust the difficulty level of activities, modify the number of questions, alter the range of multiple-choice answers, and tailor the number range used in the questions to suit specific needs and preferences.

Phonics

With the Phonics template, you can customise the number of questions and adjust the answer options to create a personalised learning experience that suits individual needs and progress.

Media Player

The Media Player activity lets you create non-interactive images or videos that play uninterrupted, making it ideal for Immersive Room environments where the focus remains on the content without disruption from user interaction.

Paint

The Paint activity lets you create a custom Image Painter, allowing users to color in black-and-white images or use it to reveal one picture beneath another, offering an engaging and interactive way to explore creativity.

Storyboard (Editor Pro Required)

The Storyboard activity offers two exciting features: you can create your own interactive quizzes or design personalised interactive stories and tours, providing an engaging way to educate and captivate users through dynamic, customised content.

Creation Suite

What can Activity types can I create?

Tiles

The Tile activity enables you to design a compelling cause-and-effect experience, offering four different modes of effect to choose from, allowing for a highly customisable and engaging interactive activity.

Splat

Splat is a fun cause-and-effect activity that lets you create your own splat-themed experience. Choose a custom background image or video and select the element you want to splat from a range of available options, making for an engaging and interactive experience.

Boing

Boing is another exciting cause-and-effect activity, where you can select from a variety of elements to bounce around the screen, creating an engaging and interactive experience that encourages exploration and learning.

Bubbles

Bubbles lets you customise your experience by selecting your own background image or video, while overlaying a satisfying bubble-popping activity, creating a fun and engaging sensory experience

Catch

The Catch Game allows you to personalise the experience by selecting a custom background and choosing the objects to catch from a range of available elements, creating a fun and engaging interactive activity.

Creation Suite

What can Activity types can I create?

Fish

The Fish Theme lets you customise your experience by selecting a background, adjusting the number of fish, enabling or disabling water ripples, and even choosing whether the fish swim toward or away from you, creating an immersive and interactive aquatic scene.

Jigsaw

Create your own Jigsaw by using a custom image or video, transforming it into an interactive puzzle for a fun and engaging experience.

Particles

Particles is a creative cause-and-effect activity that lets you customise your experience by selecting a background image or video and choosing from various image packs to generate a dynamic particle effect. With three unique effects to choose from, it offers an engaging and interactive visual experience.

Scatter

Scatter is an interactive cause-and-effect activity that simulates sweeping objects out of the way. Customise the experience by selecting your own background and choosing the elements to scatter, creating an engaging and dynamic interaction.

Wordsearch

Create your own Wordsearch for a personalised activity that is both educational and fun, allowing you to customise words and themes to suit any learning or entertainment purpose.

A WORLD OF FUN AT YOUR FINGERTIPS

NUI TEQ® CAMPFIRE

NUI TEQ Campfire is a world of fun at your fingertips

| | | |
|-----------|-----------|----------|
| Zones | Drums | Jigsaw |
| Airhockey | Froggy | Runway |
| Aliens | FX | Slots |
| Bugs | Gravity | Snowdoku |
| Bullseye | Labyrinth | Stacks |
| Cards | Memory | Tap |
| Couronne | Piano | Untangle |
| Curling | Pinball | Warp |
| Deflector | Pong | Wong |
| Draw | Pool | Zong |

Zones

Divide your interactive display into sections to leverage its multi-user collaborative capabilities.

Cards

Play a friend and chase the highest card combination in this fun casino game.

FX

Create amazing visualizations at your fingertips, making interactive surfaces come alive in restaurants, nightclubs or other public areas.

Aliens

Defend your planet against rampaging alien forces.

Wong

Fun multi-user twist to the classic arcade game.

Zong

Zong is a fun twist on Wong with the addition of obstacles, zones and pickups, as well as a 3 or 4 player option.

Warp

Warp is a fun single and multi-player game, that is about dodging enemies and outplaying your opponents.

Labyrinth

Guide your disc from the start to the finish and compete for the best time.

Piano

Play and record your own compositions.

Bugs

Collect bugs of the same family as fast as possible to win.

Froggy

Catch as many flies as fast as possible to get the high score.

Memory

Play a classic game of Memory with your friends.

Pong

This classic table-tennis game relies on quick hands.

Drums

Rock the drum kit to create your own sounds.

Airhockey

Fast-paced entertaining arcade game.

Tap

Test your reflexes by tapping the buttons as fast as you can.

Couronne

Play a classic game of Couronne with your friends. Sink all the discs of your colour.

Pool

Pool is the classic game almost everybody is familiar with.

There are three modes to play: Snooker, 8-ball and 9-ball, each with their own set of rules.

Bullseye

Bullseye is a shooting game. The player shoots at moving targets to score as many points as possible before the time runs out.

You can also play Bullseye against a friend/second player. In this mode, you use a slingshot with a pebble instead of a bow and arrow.

Pinball

Pinball is any arcade gamers dream. Score as many points as possible. Hit the different targets with the ball using the two flippers in the bottom.

Slots

Play with virtual money, spin the reels and try to win the jackpot.

Draw

Create, save, print & email your own drawings and fun artwork.

Deflector

Test your reaction skills by destroying the blocks, reaching higher levels and beating the high score.

Gravitory

Draw objects, control, and experience the effects of the gravity playground.

Runway

Land the planes on the correct runway.

Jigsaw

Entertain your target audience with personalized and branded video and picture content.

Stacks

Build a stable tower as fast as possible to beat your opponent.

Untangle

This mind-bending puzzle game can be played solo or with friends.

Curling

Beat your friends by nudging their stones out of the way.

Snowdoku

Solve the number puzzle as fast as you can.

Configurator

Quickly create your own personalized, branded look and feel, without the need to program. Easily change backgrounds, icons, text, game settings, menu layouts, and other content, to fit your personal preference.

How To Order

SCAN HERE

Ordering from Integrex Limited is simple and tailored to your needs. For Sensory Rooms and Immersive Environments, we offer personalised consultations either onsite or via Teams to ensure your space is optimally designed and equipped. For products such as the SENSE range and Interactive Screens, you can conveniently place your order online through our Website.
